That's ok with me.

We'll just need to send OECA the updated guidance so they can work on their management approvals to move forward. If you want, I can do a quick spot check to make sure it's good to send them.

Thanks,  
Ryne

Ryne:

I hope you are OK with what I sent to Helene. She and Joe Varco responded almost immediately and said was OK with the change in wording of the label claim from Optimizes efficiency of plant nutrition to Optimizes nutrient use efficiency.

Is there anything else you would like to see before I start assembling briefing materials to send to Nancy Beck's people?

Russ
